

2022 Motor Rebate Program (CIP # 5)

HOW TO APPLY

1. AMU provides energy efficiency rebates for the purchase and installation of qualifying motor equipment. Additional motor rebates, not listed on this application, may be available through our Custom Efficiency program which **requires pre-approval prior to starting a project.**
2. AMU does not endorse any particular manufacturer, product, or system design by offering these rebates. AMU does not expressly or implicitly warrant the performance of the installed equipment. AMU does not guarantee that a specific level of energy cost savings will result from implementing energy conservation measures or the use of products funded under this program.
3. The customer acknowledges that nothing contained in the application shall impose any liability on AMU for the work performed and information presented by the customer's engineer, contractor, or vendor. AMU is not liable for rebates promised to customers as a result of a contractor misrepresenting the program.
4. A signed application and detailed installation invoice (s) must be submitted to AMU **within 6 months of the invoice date.** Invoice (s) submitted **must** include quantity, hp, price, manufacturer's make and model numbers, and product codes for each item, and end use function. Mail the completed forms along with copies of your itemized paid receipt(s) or paid contractor invoice(s) with manufacturer name(s), model number(s), and any other required documentation to:

Anoka Municipal Utility
2015 First Avenue
Anoka, MN 55303

5. The customer understands the program term is April 1st 2022 through March 31st 2023 or sooner if allocated funds from AMU are depleted. Applications will be accepted on a first-come, first-served basis. If you estimate your rebate to be \$10,000 or more, please call us at **763-576-2904** before submitting your application to make sure funds are still available. This program shall at all times be subject to change or termination without prior notice.
6. AMU reserves the right to inspect customer facility (i.e.) for installation of materials listed on this rebate application and will need access to survey the installed project.
7. The maximum rebate amount shall be the lessor of 60% of the project cost (including equipment and labor) or \$100,000. In no case will the rebate amount exceed the purchased price of the equipment.
8. Make and retain a copy of all materials including application and rebate forms and paid receipts for one year.
9. If all the above criteria are met and verified, you will receive your rebate check as time allows. The customer is responsible for paying the contractor in full. Rebate checks are issued to the utility account holder only.
10. Questions? Check the rebate information on AMU's website or call us at **763-576-2904.**

Program Specific Rules

1. The program offers two types of rebate levels depending on your situation. New motor rebates are available to customers who install a motor (where one never existed), or replace a non-operating (non-working) motor with a NEMA Premium motor or better. Motor upgrade rebates are available to customers who replace an operating/functioning inefficient motor with a NEMA Premium motor.
2. Rebates will apply only for **new premium efficiency motors** (not rewound or repaired motors) for new or retrofit installations only.
3. If you are replacing a working motor, then you must replace it with a qualifying AC motor of the same size or smaller size in order to qualify for the Motor Upgrade/Replacement Motor Efficiency rebate. Otherwise, the rebate offer will revert to the new motor schedule amount.
4. Customers must scrap the previous motor themselves or have it scrapped by their installer. By signing the application, you are acknowledging that the motor has been scrapped.
5. Motors greater than 200 hp. or whose hp. size is not listed on our rebate sheet, need to be submitted for preapproval since an evaluation is required prior to equipment purchase and installation.

Commercial Motor Rebate Application

April 1st 2022 – March 31st 2023

**Important: Annual operating hours for new equipment must be provided.
Rebate forms that are not legible or incomplete will not be processed.**

AMU CUSTOMER INFORMATION (Please print clearly)			
Business Name:		Phone #:	
Contact Name:			
Mailing Address:			
City:	State:	Zip:	Account #:
			(see current AMU electric bill for account number)
